Community Data 2.0: Sarasota

A workshop on

"Community Data for Community Change"

Thursday, August 16, 8:30 a.m. to 12:30 p.m.

Robert L. Taylor Community Complex, 1845 34th St., Sarasota

People who live and work in Sarasota are invited to attend a workshop on innovative approaches to using community data to make decisions and take action.

Participants will:

See what Sarasota looks like today	Share perspectives on Qualities of Life	Learn about the Community Data Collaborative:
Who lives here? How's everybody doing? What "good stuff" is here?	What qualities of life matter most to people in Sarasota? How can this best inform the selection of community indicators?	Find out how to get involved with this growing network of people from various neighborhoods & professional sectors creating user-friendly data resources for the sake of positive community change.

Co-hosted By:

Data 2.0: Sarasota - Participants

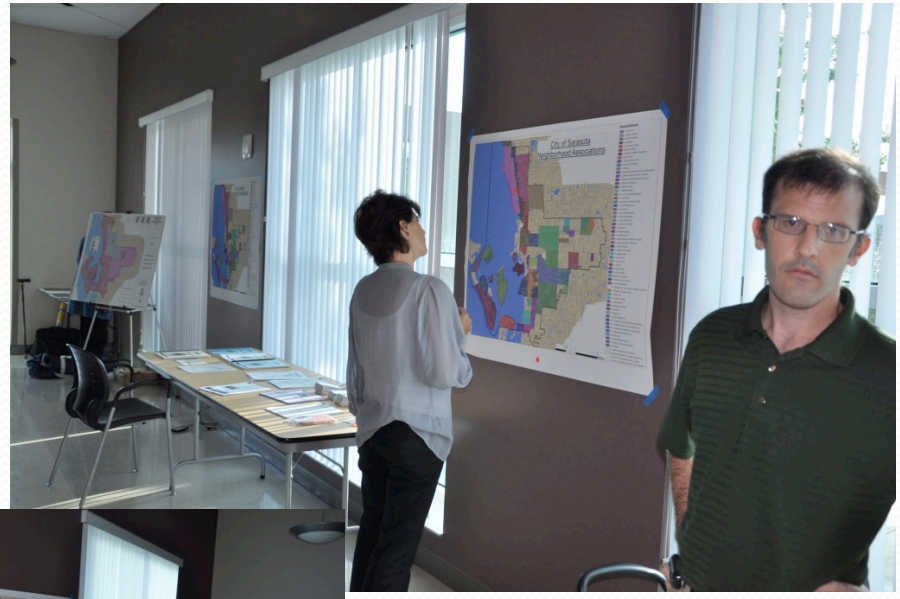
What Happened?



Discussion Questions

Existent Indicators that Matter	As someone who lives and/or works in Sarasota, what surprises you in the patterns revealed in these data? Which patterns interest, concern or inspire you most?
Qualities of Well-Being that Matter	What are the qualities of life that matter most to children, adults, and families in Sarasota?
Everyday Evidence	What would these qualities look like if we could see them?
Proposed Indicators	How can we measure these qualities?

Welcome Home, Sarasota County!
WELCOME
This website exists as a way for all of us who live and work here in Sarasota County to share what we know about this place we call home. Each neighborhood is unique and together across neighborhoods we create a community that is forever growing, changing and evolving. The more we know and understand about the place where we live – from many different vantage points – the better we can discover and pay attention to what matters, and respond in ways that make a meaningful difference for our own neighborhoods, and for our broader shared community.
Here's how it works:
To enter the web portal that connects with your neighborhood, scroll through this list or click on the map.
If you don't see your neighborhood listed or highlighted, click here to define the boundaries and create a portal to your neighborhood.
If you are interested in exploring information about your city or our county as a whole, first choose a neighborhood through which to connect. Once you find yourself in a neighborhood, you'll have an opportunity to zoom out from there.

- "It is a pivotal time. We need to be change-makers – and very capable ones at that."
- "How can we be more than just anxious critics of the status quo or wishful thinkers about a better future, and become actual and effective agents for large-scale transformation?"

"We believed that ways of seeing could change ways of doing."

Getting to Maybe: How the World is Changed.

Westley, Zimmerman & Patton. (2006).
